Hiring Manager
Software Development
Demonware
Boston,MA

To Whom It May Concern,
I am very interested in the Software Development position at Demonware. As an experienced software developer with a passion for gaming, I am excited about the opportunity to contribute my skills and expertise to a company that creates some of the world's most popular games.

In my current role as a computer engineering student at CESI_ rouen, I have had the opportunity to work on a variety of projects, including mobile applications, web-based software, and I work on independent video games in my free time. My experience with programming languages such as C#, C++, and Python, as well as my familiarity with Linux and with software development methodologies such as Agile and Scrum or by using git, have enabled me to develop high-quality software products that meet or exceed customer expectations.

I am particularly impressed by Demonware's commitment to innovation and its focus on creating immersive and engaging gaming experiences. Your work on popular franchises such as Call of Duty and Crash Bandicoot has set a high standard in the industry, and I am excited about the possibility of contributing to your future success. Thank you for considering my application for the Software Development position at Demonware. I am confident that my skills and experience make me a strong candidate for the role, and I would be honored to be a part of your team. Please find my resume attached for your review, and do not hesitate to contact me if you have any further questions.

Best regards,
De Sisto Lorenzo
